

AJMAIN HYDER

+1 (437) 436-3112 | ajmain.hyder@torontomu.ca | [LinkedIn](#) | [Portfolio](#) | Toronto, ON

TECHNICAL SKILLS

Languages: Java, Python, C/C++/C#, JavaScript/TypeScript, SQL, HTML/CSS

Frameworks: React, Node.js, Express.js, Spring, Unity

Databases: MySQL, Oracle SQL, MongoDB

Cloud & Dev Tools: AWS (S3, Lambda), Git, GitHub, Docker, Postman, VS Code, Vercel, GHPages

Core Concepts: Data Structures & Algorithms, OOP, Software Engineering, Machine Learning, Artificial Intelligence, Computer Networks, Operating Systems

PROJECTS

Photography Gallery (WIP) | *React, Node.js, AWS S3/Lambda, TypeScript* February 2026 – Present

- Engineered a full-stack photography web application using React, Node.js, and TypeScript, enabling secure image upload and dynamic gallery rendering.
- Developed RESTful API endpoints using Node.js and Express, integrating AWS Lambda and S3 for scalable serverless image storage.
- Architected asynchronous backend logic using Node.js, optimizing data throughput and ensuring low-latency real-time UI updates.

Personal Portfolio | *React, JavaScript, Git, Vercel* December 2025

- Designed and deployed a responsive portfolio website using React and CSS, ensuring consistent layout and accessibility across all screen sizes.
- Integrated Framer Motion animations into React components, enhancing visual polish and delivering a smoother user experience.
- Deployed the portfolio to Vercel with Git-based continuous deployment, providing employers always-available access to a live project showcase.

Photo/Video Rental DBMS | *Java, SQL* September 2025 – December 2025

- Designed ER diagrams and normalized the relational schema to 3NF and BCNF using SQL, eliminating redundancy and enforcing data integrity.
- Implemented full CRUD functionality using Java and optimized SQL joins and stored procedures, enabling accurate real-time reporting.

PROFESSIONAL EXPERIENCE

Client IT Co-op | *AD, Intune, Jira Service Desk, SharePoint, MS Excel* September 2024 – December 2024
Ontario Institute of Cancer Research (OICR) *Toronto, ON*

- Utilized Jira Service Desk software to create, update, and resolve an average of 20-40 tickets per week
- Created and Updated IT documentation including knowledge bases and certificates of destruction, reducing redundancies.
- Audited the internal IT asset inventory in SharePoint by tracking and reconciling hardware records, improving data accuracy and supporting informed procurement decisions.
- Assisted senior IT administrators in testing and validating endpoint policies using Intune, Active Directory, Windows Defender, identifying configuration issues before deployment to ensure stable roll outs across the organization.

EDUCATION

Honours B.Sc. in Computer Science (Co-op) Jan 2023 – July 2028
Toronto Metropolitan University *Toronto, ON*

- Events Photographer - TMU Bangladesh Student Association (November 2023 – April 2025)
- Graphic Designer - TMU MSA (September 2023 – April 2024)
- Team Member - MACH TMU Liquid Rocketry (May 2023 – April 2024)
